Lec 7.	The barracks installation on the western border of Leczyca (Q 53/0 77) was unoccupied in July 1950. Prior to December 1946 it had been occupied by a Soviet F unit. It was then turned over to civilian agencies. According to Poles, a military unit was to be quartered there during the fall of 1950.	
8.	The installation was located on the south side of the main road to Poddebice (Q 52/0 55), about 200 meters west of the Lodz (Q 52/0 93)—Kutno (Q 53/0 89) railroad line. It consisted of a large three-story building with saddle roof; two wooden garages, one of which was complete with workshop; a vehicle shed; a dwelling house; and a guardhouse. A Polish infantry battalion, assigned to a regiment in Lodz, had been quartered in this installation prior to world war II.	
9.	A district security police headquarters which controlled all militia posts in the Leczyca district was located at the intersection of ul. Poztowa and ul. Kilinskiego.	
10.	There were no other military installations in Leczyca. Soviet troops were not observed there.	
:# 	part of the MON (Ministry of National Defense) and the unit observed a guard battalion quartered there.	25X1
**	Comment. This barracks installation borders on Aleja Stalina on the east and was probably newly constructed for the MON. A guard unit is believed to be quartered there.	25X1
